Indicative Comments

Gymnasium Teacher, Female

"The curriculum is very good! This year, I utilized the "It's Cool to be Kind" unit with my 2nd graders. In particular, we worked with the Worksheets "Practicing Empathy" and "Ways to show Kindness", which provided opportunities for very interesting discussions. What would help a lot, in my opinion, is to have indicative answers for the Worksheets."

Primary School Teacher, Male

"I think everything was well prepared and met the needs of the program."

Primary School Teacher, Male

"This program should become a part of the national program and be a part of the obligatory curriculum."
